Laser Treatment for Unwanted Light Color Body Hair
Participants will receive 6 laser treatments combined with a topical solution scheduled 6-8 weeks apart. Participants must return for follow-up visits 3, 6, 9, and 12 months after the final treatment.

Inclusion Criteria:
- Healthy male & female patients 18 years of age or older
- Fitzpatrick Skin Type I, II, or III
- Has light hair defined as white, gray, blonde, light brown, or light red on the face, back of neck, underarms, or bikini line
- Has a minimum of 10 hairs on each side of the area being treated
- Hairs are at least 2mm long
- Willing to refrain from waxing, plucking, sugaring, threading, rotary epilation, bleaching, dyeing or using depilatory cream on the treatment area during the study
- Willing to have photographs taken of the treated areas to be used de-identified in evaluations, publications and presentations
- For females: using a medically acceptable form for birth control (i.e. oral contraceptives (for at least 6 months), IUD, contraceptive implant, barrier methods with spermicide, or abstinence).

Exclusion Criteria:
- Has bleached, dyed or artificially colored hair in the treatment area
- Has an uncontrolled systemic disease, active bacterial/fungal/viral infection in the treatment area, or history of impaired wound healing (i.e., keloid scarring)
- Has a history of hirsutism due to hormonal dysfunction
- Has a history or presence of any skin conditions that would interfere with the treatment area (i.e., atopic dermatitis, eczema, psoriasis)
- Has used self-tanner in the last 7 days or has visible tan lines
- Has a history of adverse reactions to sugaring/waxing or any forms of epilation
- Has had prior laser hair removal or electrolysis in the past 12 months
- Has previously been treated with a systemic retinoid such as Accutane in the past 12 months
- Is undergoing hormonal treatments such as spironolactone
- Has a sensitivity or allergy to silver
- Is currently participating in another drug or device research study or has participated in the past 30 days
- For females: is currently pregnant, breastfeeding or planning a pregnancy
