The following treatment options may be recommended by your physician

BOTOX®/DYSPORT®/XEOMIN INJECTIONS

- For improvement of dynamic wrinkles (frown lines, crows feet, neck laxity, lip lines)
- A minute amount is injected, relaxing the muscles that cause wrinkles
- Repeat treatments are required to maintain desired effect

FILLER (Restylane®, Restylane-L®, Restylane Silk®, Restylane Lyft®, Restylane® Refyne, Restylane® Defyne, Sculptra®, Radiesse®, Juvederm Ultra®, Juvederm Ultra Plus®XC, Juvederm Volbella, Juvederm Voluma®XC, Juvederm Vollure, Belotero®)

- For correction of scars, marionette lines, laugh lines, fine wrinkling, lifting, lip augmentation, rejuvenation or volume loss
- Products are injected directly into skin causing diminution of wrinkles, scars, volume correction and lifting
- Repeat treatments are required to maintain desired effect

NON-INVASIVE REJUVENATION (Fraxel® Dual, PRP, Nd:YAG, Clear+Brilliant®, Laser Genesis, Clear +Brilliant® Permea, PicoSure®, Infini, Thermi Smooth, Halo, LaseMD)

- For fine lines, moderate wrinkles, mild laxity, rejuvenation, sun damage, mottled pigmentation, loss of pigmentation, scars, stretch marks, and enlarged pores
- Minimal to no recovery time for most patients
- Temporary redness, swelling and bronzing of the skin can be seen
- Several treatments are required
- Full benefits may not be seen for several months

RESURFACING LASERS (Erbium, Fraxel® Repair, Active FX™, DeepFX™, CO²RE, Halo, Clear+Brilliant® Fraxel® Dual, FASA Procedure, ProFractional, Sciton Contour TRL)

- For sun damage, fine lines, mottled pigmentation, scarring and moderate wrinkles
- Lasers remove upper portion of skin layer by layer in a precisely controlled manner, effectively rejuvenating and tightening skin
- Recovery period can range from 3-10 days
- After the recovery period, patients are red for a few weeks or more, but this can be covered effectively with make-up.

BODY CONTOURING/CELLULITE REDUCTION/DOUBLE CHIN (Cellfina™, CoolSculpting®, Thermage® CPT, Kybella™, Liposuction, SculpSure, Thermitight, Ulthera, Thermi 250, Ultrashape)

- For reduction of cellulite or size/circumference
- Improves skin dimpling, laxity and firmness
- Shapes, contours and slims
- Reduces double chin

SKIN LAXITY (Thermage® CPT, GentleYAG™, Fraxel® Repair, ActiveFX™, DeepFX™, Ulthera®, Thermi Smooth, Thermi Tight, Infini, Instalift)

- For skin laxity in jowls, marionette lines, laugh lines, forehead, eyelids, neck, extremities, hands, abdomen and buttocks
- Tightens the skin via sustained heating to tissue
- Results may be seen immediately following treatment and continue to improve for up to 4 months

SCAR TREATMENTS (Fraxel® Repair, Fraxel® Dual, VBeam®, Q-switched Ruby, Nd:YAG, Clear+Brilliant® Permea, Erbium:YAG, ActiveFX™, PicoSure™, CO²RE, Infini, Deep FX, Scaar FX, Injections, Topical Filler, Cross Technique, Punch Grafts, LaseMD, ProFractional)

- For raised, depressed or discolored scars
- Multiple treatments usually required
- Combination therapy with more than one laser may be necessary

PIGMENTED LESION REMOVAL (Q-switched Ruby, Nd:YAG, Fraxel® Dual, Clear+Brilliant®, Clear+Brilliant® Permea, PicoSure™, LaseMD, Picoplus, Halo, BBL)

- For solar lentigenes (sun spots), nevus of Ota, melasma and other pigmented lesions
- Laser selectively targets the pigmented lesion, leaving normal surrounding skin unharmed
- May require multiple treatments

VASCULAR LESION REMOVAL (VBeam® Perfecta, GentleYAG™, ExcelV™, GentleLASE®, Cynergy, BBL)

- For broken or enlarged blood vessels, redness, scars, hemangiomas, portwine stains and other vascular lesions.
- Minimal to no recovery period, unless treating hemangiomas or congenital vascular malformations
- Multiple treatments may be required for desired results

PIGMENT RESTORATION (Fraxel® Repair, Fraxel® Dual, Excimer, ActiveFX™, ProFractional)

- For scars, stretch marks, vitiligo and other areas of decreased pigmentation
- Multiple treatments required

HAIR GROWTH

- PRP
- PRP Plus

HAIR REMOVAL (GentleLASE®, GentleMAX®, GentleMAX® PRO, Vectus®, Miradry, Excel-V)

- For unwanted body or facial hair
- Treatments are spaced approximately every four to twelve weeks
- An anesthetic cream may be applied one hour prior to treatment to reduce discomfort
- Requires multiple treatments for desired results

TATTOO REMOVAL (Q-switched Ruby, Picosure, Nd:YAG, PicoPlus®, Fraxel®Dual, Fraxel® Repair, Active FX™, CO²RE)

- Decorative Tattoos
- Cosmetic Tattoos
- Traumatic Tattoos
- Radiation Tattoos

LEG VEIN TREATMENT (Sclerotherapy, VBeam®Perfecta, Nd:YAG, CoolTouch CTEV™, Excel V™, GentleMAX®)

- For improvement of small superficial veins (telangiectasia), bluish and torturous varicose veins of the legs
- With sclerotherapy, a small amount of sclerosing solution is injected into the affected vein, causing the vessel to collapse and resolve
- Often requires multiple treatments for desired results
- CoolTouch CTEV™, a minimally invasive, image-guided procedure utilizes laser energy to close abnormally enlarged or dysfunctional leg veins
- May help leg swelling, aching, fatigue, cramping, burning or skin irritation due to incompetent leg vein valves

ACNE LASER/LIGHT TREATMENT (Nd:YAG, Isolaz® Excel V™, IPL, Laser Genesis)

- For treatment of active acne, acne scarring and oily skin
- Shrinks oil producing glands of the skin that are involved in acne
- May stimulate collagen production to diminish the appearance of scarring
- Requires multiple treatments

CHEMICAL PEELS (Glycolic, Salicylic, Jessners, TCA)

- For acne, melasma, sun damage and skin rejuvenation
- Gently removes the top layer of dead skin cells
- Improves skin texture, color and fine lines

PRP (Platelet Rich Plasma) + **PRP Plus**

- Hair Growth
- Rejuvenation

GENTLEWAVES®

- Expedites the healing process after sunburns or laser procedures
- This non-invasive treatment uses light-emitting diodes to stimulate collagen production in the skin leading to smoother and softer skin
- There is no pain, redness or wounding from the procedure
- Best results are seen with twice weekly treatments

VAGINAL REJUVENATION (Thermiva) (Performed by Board Certified Gynecologist)

- Tightening - Internal/External
- Dryness
- Incontinence
